New YORK, Nov. 4.

The World's Kingston (Jamalca) letter of the 15th of October, states that the principal canse of the outbreak among the negroes is owing to the response from the Government in answer to a petition for relief from their financial grievances, virtually telling them to go to work; also that several negroes from the United States have disseminated pernicious ideas among the ignorant blacks, and the influx of a large number of brutal negroes from St. Domingo. Several white men and women in Elizabeth parish have been horriving murdered, and the utmost terror reigns in Elack river and the vicinity, and there will be an indiscriminate massacre if the uprising is universal.
